

I strongly oppose relaxing limits on media ownership. Radio has become an unmitigated disaster, because of relaxation of those limits. Radio in the Portland OR area is monotonous, with virtually no centrist or moderately left viewpoints. Obscenity - yes obscenity- is constantly broadcast by right wing media corporations such as Clear Channel. WE DO NOT need this anywhere else.

We need a return to the Fairness Doctrine.

Americans DO NOT get the media, even now, that we should be getting. We get extremely biased corporate media- even public broadcasting is this way now.

If anything, ownership requirements should be made even stronger.
